Important Safety Information

- Before using this product, users must thoroughly read this user manual and become familiar with the product's features and risks. Failure to use this product in a safe and responsible manner may result in harm to yourself or others, or damage to the product or other property.
- Do not use this product with unauthorized accessories or devices. For information on compatibility, please visit our official website.
- The immersive viewing experience provided by the use of lens shade attachments completely obscures the user's surroundings. Therefore, in order to avoid an increased risk of injuries, you must ensure that during use of the product you remain in a safe environment and take particular attention to safety.
- Before using this product, carefully inspect its appearance for any damage, such as cracks or missing parts in the frame, lenses, or nose pads. If the product is damaged or becomes damaged at any time, do not use it.
- Before using the product, please carefully inspect and confirm the safety of your surrounding environment, as failure to do so may result in serious injury or death.
- Ensure that your surroundings while using this product is free of any obstacles, furniture, pits, slippery surfaces, people, or pets. Stay away from stairs, balconies, open doors, windows, and open flames.
- Note that outdoor use of this product may introduce uncontrollable and unforeseeable dangers to your personal safety, such as vehicle or pedestrian traffic, environmental noise, or changes in lighting conditions, which can adversely affect the product's functions (such as spatial tracking).
- When using this product, please adjust the display brightness to minimize the contrast between the

display and the surrounding environment. Both maximum brightness in dark environments and minimum brightness in bright environments can cause visual impairment.

- Refrain from using this product In places where the use of wireless devices is explicitly prohibited, such as medical and healthcare facilities. Failure to do so may cause interference with other electronic medical devices or pose other risks.
- Avoid using this product when you do not have a complete understanding of the actual environment.
- Do not use this product if sudden movements or intense physical activities may be required.
- Do not use this product in moving vehicles such as cars, buses, subways, or trains, as changes in speed and sudden movements may exacerbate adverse reactions while using this product.
- Avoid using this product in noisy environments, as distractions may create dangerous situations or prompt you to raise the product's volume to unsafe levels.
- Do not use this product in environments with any unknown risk factors, or during driving, as it may be risky and even life-threatening and the use of the product while driving may violate local laws.
- This product and its accessories may contain small parts. Please keep the device and accessories out of the reach of children. Children may inadvertently damage the product and its accessories or swallow small parts, leading to choking or other hazards.

Health and Safety Warnings

- Do not attempt to disassemble, reassemble, modify, or repair the product by yourself or by engaging unauthorized entities. In the event of obvious malfunction (even if the malfunction may not affect certain product functions), cease using the product immediately to prevent electric shock, serious injury, or death.
- Do not use this product if you are sick, fatigued, under the influence of alcohol or other medications, or feeling unwell, as it may exacerbate your illness and increase the risk of use under those conditions.
- During use of the product, moving images and changing light conditions may cause dizziness or loss of balance. If you experience any of the following symptoms, please stop using the product immediately and consult a doctor: spasms, loss of consciousness, seizures, involuntary movements, dizziness, directional impairment, nausea, headache, drowsiness or fatigue, eye pain or discomfort, eye fatigue, eye twitching, or vision abnormalities (such as distortion, blurriness, or double vision), excessive sweating, increased salivation, impaired balance, impaired hand-eye coordination, or other symptoms similar to motion sickness.
- If you have a history of severe health conditions such as epilepsy, hypertension, heart disease, acrophobia (fear of heights), severe myopia, mental illnesses, or if you are pregnant, it is not advisable to use this product. If you are not in any of these categories but nevertheless experience dizziness, eye fatigue, visual abnormalities (such as diplopia, distorted vision, eye discomfort, or pain) while using this product, please stop using it immediately.
- If you have serious health issues (such as heart diseases), conditions that affect your ability to engage in physical activities safely, or if you are elderly, please consult your doctor before using this product.
- Please exercise moderation in eye usage and avoid prolonged wearing of this product to prevent visual fatigue. It is recommended to take a break of 10-15 minutes every 2 hours.
- As their vision may not be fully developed, individuals under the age of 18 should not use this product.
- Individuals with facial injuries affecting areas where the product is worn, or individuals who are easily prone to scalding or burning at low temperatures, should refrain from using this product.
- This product does not provide visual correction, and individuals with vision issues such as myopia (near-sightedness), hyperopia (far-sightedness), or astigmatism may have difficulty viewing the screen.
- This product should not be worn simultaneously with any other form of eyewear, as it may result in damage to the product or be dangerous to users.
- Some individuals may have allergies to materials such as plastic, leather, or fibers, leading to symptoms including redness, swelling, and inflammation after prolonged exposure. If you experience similar conditions, please discontinue the use of this product and consult a doctor.
- To prevent the transmission of contagious diseases (such as conjunctivitis), avoid sharing this product with individuals who have contagious diseases or other illnesses, especially those affecting the eyes or skin. Before each use, clean the product by gently wiping it with a neutral and mild cleanser using the provided eyeglass cloth. Dry the product with a dry, non-abrasive, microfiber cloth or eyeglass cloth.

- To prevent radio wave interference, maintain a distance of at least 15cm between this product and implanted medical devices or personal medical equipment (such as pacemakers, cochlear implants, hearing aids,etc.). Consult the manufacturers of such devices for restrictions using this product.
- Do not use this product at gas stations or in close proximity to flammable materials, chemicals, or any areas with flammable or explosive risks.
- All users should regularly review the health and safety warnings for this product to stay informed about any updates to the warnings. Please visit the official website for such updates: www.myvu.net

Prolonged Heat Exposure

- Please do not place the product in direct sunlight or near heat sources such as radiators or flames, as this may lead to overheating or damage to the product.
- In the event of abnormal heating in extreme environmental conditions, please cease using the product immediately.
- If the product remains in an overheated state, it will automatically shut down.

Recommended Usage Environment

The operating environment for this product is: temperature from 0℃ to 35℃, altitude of below 2000 meters. The storage temperature for this product and its accessories is between -20℃ and 45℃. Please avoid storing or using this product in humid environments. This product is only resistant to sweat or small amounts of water droplets. Do not wear this product while swimming or bathing / showering, immersing it in water, or using it in the rain. If cleaning is needed, use a dry microfiber cloth.

Handling and Storage

This product is not sold with a power adapter. Any power adapter you choose for power supply for the product should comply with IEC 62368-1:2018/EN62368-1:2018 standards. Please avoid using inferior adapters which might cause irreparable damage to the product.

The display screen equipped in this product is made with high precision technologies. Please avoid throwing, tossing, or dropping the product and prevent it from experiencing strong external impacts. If the product is dropped, crushed, or damaged due to external force, please cease using the product immediately.

Please protect this product with its dedicated case and avoid exposing the product to liquids, moisture, direct sunlight, or rain and snow, which could cause irreparable damage to the product.

When storing the product, ensure that its temple arms are folded properly, and avoid applying excessive pressure to the temple arms.

Refrain from frequent insertion and removal of the nose pads to prevent unnecessary wear. Avoid damaging the product by directly exposing either side of the lenses to powerful light sources (such as lasers or flashlights).

Commitments of After-Sales Service

The after-sales service is provided by the distributor of this product or the official authorized service partner. If there is any conflict between these terms of after-sales service of the product's distributor and local regulations, the latter shall prevail.

Friendly Reminder

- Defects occurring in the product during normal use are eligible for free repair within 12 months from the date of purchase. However, if you purchase the product from within the EU or EFTA, the warranty period shall be 24 months.
- If you are unable to provide a valid proof of purchase, your warranty period will start 90 days after the product's manufacturing date as provided by the manufacturer.
- Repairs beyond the warranty period and damages caused by unauthorized disassembly / repairs will incur corresponding charges.
- Regular system software updates are necessary to maintain optimal performance. Some malfunctions can be resolved after system software updates, and utilizing the system update service will not affect the original warranty rights of the device. Please keep the device turned on during the update and maintain a stable internet connection.

Model:XGA0101C   Made in China V1.0

EU regulatory conformance

Hubei Xingji Meizu Group Co., Ltd. hereby declares that this device XGA010C is in compliance with Directive 2014/53/EU (RED), Regulation (EU) 1907/2006 (REACH), Directive 2011/65/EU (RoHS) and-where applicable-Regulation (EU) 2023/1542 (Batteries). The full text of the EU declaration of conformity is available at the following internet address: www.myvu.net

This equipment may be operated in all European countries.

Regulatory certification

After pairing your smartphone with this product, you can access information on the regulatory certification via the MYVU app. Go to Settings for Glasses > About Glasses > Regulatory Certification.

Disposal and recycling information

The symbol on the product, battery, literature, or packaging means that the products and batteries should be taken to separate waste collection points designated by local authorities at the end of their life span. This will ensure that EEE waste is recycled and treated in a manner that conserves valuable materials and protects human health and the environment. For more information, please contact your local authorities, retailer, or household waste disposal service or visit the website www.myvu.net

Disposal of electrical and electronic equipment

The crossed-out garbage can means that you are legally obliged to collect these devices separately from unsorted municipal waste. Disposal in the residual waste bin or yellow bin is prohibited. If the products contain batteries or accumulators that are not permanently installed, they must be removed before disposal and disposed of separately as batteries.

FCC regulatory conformance

Hubei Xingji Meizu Group Co., Ltd. hereby declares that this device XGA010C is in compliance with the essential requirements and other relevant provisions of FCC regulation

Labeling requirements

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modification warning

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Information to the user

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna. -Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.
* RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
